13.	Do you notice the words blurring or coming in and out of focus when reading or doing close work?					
14.	Do you lose your place while reading or doing close work?					
15.	Do you have to reread the same line of words when reading?					
		__x0	__x1	__x2	__x3	__x4

Total Score _____

To score the survey, simply add the check marks in each column and multiply the amount by the multiplier at the bottom of the survey. A score of 16 or more is highly predictive for convergence insufficiency.

This symptom survey is derived from the National Institute of Health's Convergence Insufficiency Treatment Trial. For full text of the study visit <http://archophth.ama-assn.org/cgi/reprint/126/10/1336>

With any questions regarding this survey or vision problems that impede learning, please contact the Washington Vision Therapy Center at 509-654-9256.
